

## Modulo 205

### CURTAIN AND OVER-CURTAIN SYSTEM FOR DOMESTIC AND HOTEL USE

The system is intended for curtains with a pelmet that can be fitted using Velcro® on a special front section.

The system also allows the vertical blinds to be installed using a click hook.

Cord or hand operated.

The system provides two possibilities:

- two curtains with independent operation
- one curtain with a large overlap or total overlap

The fabric opening is central, lateral, multiple and asymmetric.

Ceiling or wall installation with overhanging brackets.

The operating cords run in independent side-by-side channels.
