

Power 541 - 562

MOTORISED DRAPED CURTAIN SYSTEM FOR DOMESTIC AND HOTEL APPLICATION

Power 541 is equipped with Autostart, which allows hand-drawn operating too.

The actuator consists of a 24 Vdc motor with wide-range switching power supply 90-250 Vac / 24Vdc and electronics that supervise system operation.

The sliding speed of the curtain is 12 cm/sec. Performance: Power 541/1 - Curtains 600 cm W max. and weight not more than 8 kg. Power 541/2 - Curtains 1200 cm W max. and weight not more than 25 kg.

The two-channel track is recommended for curtains with an ample overlap. Curtain opening can be central, lateral or asymmetric.

The system is suitable for ceiling and wall installations.

System Power 541 allows 90° curved tracks or ones with wide radius centring to be installed. Sliding is guaranteed by self-lubricating acetal slides or by roller gliders for curtains at the load limit.

Power 562 is the double channel system recommended for curtains with big overlap.
