

Basic 414-427

CORD OPERATED SOFT-SHADE CURTAIN SYSTEM FOR DOMESTIC USE

The curtain is operated by 1 mm \varnothing polyethylene cords and stopped by a manually frontal cord lock.

The system is provided with special cord guide eyelets for creating curved systems, both at 90° and with a wide radius or arch bending.

Ceiling or wall installation or directly on the frame.

Sloped systems are allowed using the tilting stopper (41 16).
