

Rotary 442

CHAIN OPERATED SOFT-SHADE CURTAIN SYSTEM - SPECIALLY DESIGNED FOR FAST CURTAIN REMOVAL. SUITABLE FOR DOMESTIC OR PROFESSIONAL ENVIRONMENTS

For use with curtains 200 cm W max. and 300 cm H weight not more than 2.5 kg. Raising is done using front belt winding spools

operated by a clutch mechanism controlled by a chain, determining the curtain position.

The front tape winding spools provide maximum speed and simplicity when removing the curtain for washing, without any special precautions.

The curtain can be stopped in any position using the direct front clutch. Ceiling or wall installation using overhanging brackets. Suitable for curtains with 45° max. rake.
