

Rollbox 140-240

ROLLER BLINDS WITH CHAIN OPERATION INCLUDING SPRING BOX WITH MULTI STOP

Suitable for both single-leaf, tilt-and-turn windows. They are quickly installed on the glass of the window frame with velcro or double-sided tape and designed to integrate into the window, allowing a wide spectrum of use.

ROLLBOX 140: spring operated. Multi stop device for stopping in any position and simple spring reloading.

ROLLBOX 240: chain drive, large glazed surface.

Aluminum blackout side guides, 100% black out effect.
